GERMAN SPY RUMORS REVIVED

BURLINGTON, VERMONT, THURSDAY, JULY 5, 1917.

The gratification of officials over the safe arrival of the last units of the expedition is tempered by indignation that the German admiralty was able to lay its plans so well and to attack the American vessels in force before they reached the zone which had been regarded a most dangerous

Discussion of possible spy activities took many angles to-day. Some officials believe the Germans must have had a warning of the definite time agreed upon for the crossing, but others discredited any such theory, arguing that an attack was to have been expected as a natural consequence of the general knowledge that was common property. ment of justice might be asked to undernavy reports on the incident are com-
